

The National Broadcasters Association has never been an organization that held in high regard the wishes of its customers. So by my own choosing, I purchased a satellite radio. This allows me to listen to the station I choose, which should be the end of the story. I do not like the invasion of my rights that this bill would present. I urge you to reject the NAB petition 04-160 support xm radio's ability to provide the kind of programming that I and other customers demand and deserve.
